ELECTION/RESTRICTION

ELECTION/RESTRICTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. **Claim(s) 24-47** drawn to methods which require the measurement of the expression level of a marker (i.e. a gene) associated with a patient afflicted with psoriasis or a TH-1 associated condition, classified in at least, for example, Class 435, subclasses 6 and 7.1 and Class 536, subclass 23.1 and 24.3.
2. The applicant is hereby required to elect a single marker for prosecution on the merits (i.e. a single marker must be elected) because each marker is a patentably distinct entity with unique structural characteristics.

While this requirement is made in view of the explosive growth of sequence databases in recent years and in view of the fact that searches for multiple sequences/markers per application is now unduly burdensome on the office and its examiners, it is proper in light of statute, "[i]f two or more independent and distinct inventions are claimed in one application, the Commissioner may require the application to be restricted to one of the inventions." 35 U.S.C. 121. Pursuant to this statute, the rules provide that "[i]f two or more independent and distinct inventions are claimed in a single application, the examiner in his action shall require the applicant . . . to elect that invention to which his claim shall be restricted." 37 CFR 1.142(a). See also 37 CFR 1.141(a). Absent evidence to the contrary, each marker recited in the claims is presumed to represent an independent and distinct invention, subject to a restriction requirement pursuant to 35 U.S.C. 121 and 37 CFR 1.141 et seq.
3. The applicant is advised that the response to this requirement, to be complete, must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named

inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ethan Whisenant, Ph.D. whose telephone number is (703) 308-6567.
